

New York Stock Market

New York, November 29.—The highest rate for call money in several years was touched today, 20 per cent, being quoted just before the close. Quotations fluctuated in an erratic way through the day, and the bulk of the business was transacted at figures considerably below the top.

The opening was at 6 per cent, and renewals were made at 7. After mounting to 10 per cent, the rate fell back to 8. Late in the day the quotations rose by leaps, until 20 per cent was reached in the last few minutes. It was the highest rate since January 6, 1905.

A flurry in money was not altogether unexpected, although the comparative ease at the opening and the dip to 6 per cent after 10 per cent was touched. There were indications, however, that the scarcity of funds might itself be felt in some way.

Loans made today carried over into the new month, and there were preparations to be made for over a hundred million interest and discount. Another unsettling factor was the drain on this center by Canada and the interior, which threatens to operate the surplus reserve shown in last week's bank statement. Forecasts based on known movements of money indicated a cash loss of from \$1,500,000 to \$2,000,000, which would be increased by an additional shipment of \$500,000, bringing the total to \$2,500,000.

The uncertain status of money was an effective bar to speculative activity in stocks and the market was listless. The Harriman stocks and Canadian Pacific were higher, and there were movements in a few specialties, with general Electric, Westinghouse and Rubber particularly strong. Atlantic Coast Line developed considerable strength and unusual activity, rising to 141. The flurry in money was without effect on stocks.

The Harriman lines, Canadian Pacific and Northern Pacific reported income of round amounts in their earnings for October. The earnings of Union Pacific and Southern Pacific were the largest in their history.

The bond market was generally firm, although there was a slight depression in some quarters.

New York, November 29.—Money on call, strong, 6 1/2 to 7 per cent; ruling rate, 7 to 8 per cent. Time loans, 30 days, 6 1/2 to 7 per cent; 60 days, 6 1/2 to 7 per cent; 90 days, 6 1/2 to 7 per cent. Prime mercantile paper, 6 1/2 to 7 per cent.

Sterling exchange easy, with actual business in bankers' bills at \$4.80 1/2 for sixty days and at \$4.81 1/2 for demand. Commercial bills, \$4.80 1/2 to \$4.81 1/2. Mexican dollars, 19.3-4.
